

Lecture 4 CSS

In-class Exercise

Modify the CSS area to match the handout image

Please style with Embedded/Internal Style Sheets (CSS)

Please submit your final .html file

You **SHOULD NOT** change anything in the html body! Only change the CSS area to match the handout image. (that's the challenge!)

Hints/Help:

- Read the .html file carefully to understand the structure!
- There are approximately 4 styles to be added
- <hr> is a HTML tag, not CSS.
- Double check how many black lines you have!

Some links to help you

- http://www.w3schools.com/cssref/pr_font_font-size.asp
- http://www.w3schools.com/csSref/css_selectors.asp

It's like solving a puzzle, have fun with it!
